1.0 Definitions

Certain terms used generally throughout this Tariff are defined below.

Advance Payment: Payment of all or part of a charge required before the start of service.

Call Block *60: Call Block prevents unwanted calls and interruptions. Call Block *60 lets the customer select up to twelve phone numbers from their local calling area to be blocked from reaching them. They can also block incoming calls placed from the last calling number even if the number is unknown. A blocked caller will hear a voice recording that says the Customer is not presently accepting calls. Dial *60 to turn on and *80 to turn off. (N)

Call Forwarding: Call Forwarding forwards all incoming calls to another telephone number specified by the Customer. Press *72 and enter the phone number where the calls are to be forwarded. Two short tones will verify Call Forwarding is activated. Press *73 to turn it off. (N)

Call Return *69: Activate Call Return by dialing *69. Turn Cal Return off by dialing *89. Call Return will automatically store the number of the last person who called. It can be used to return a call whether the call was answered or not. If the return number is busy, it will ring the number when it is no longer busy for up to thirty minutes. This service will monitor a busy number for one-half hour. (N)

Call Selector: A Customer phone list can be designed exclusive to twelve callers the Customer chooses. Other callers receive a polite announcement that says they are not presently receiving calls. Press *64 and follow the voice prompts. (N)

Call Trace: A service which permits the tracing of the last call received and holds the result for later use by an authorized law enforcement agency. (N)

Issued: 7/12/01

Effective: 8/13/01

Hubbard, Oregon 97032

1.0 Definitions (Cont'd)

Choice Pack: A page of services which consists of Call Return, Repeat Dialing, Call Selector, Call Forwarding, Call Block, Call Trace, and Ring Master. (N)

Call Waiting: Provides the User with a burst of tone to indicate that another call is waiting. The second call can either be answered by flashing the switch-hook or hanging up the telephone and being rung back by the caller.

Company: 1-800-RECONEX, Inc., an Oregon corporation, which is the issuer of this Tariff.

Custom Calling Package: An optional service consisting of Call Waiting and Three-Way Calling.

Customer: The person or other entity which ordered service and is responsible for the payment of charges and for compliance with the Company's Tariff regulations.

Due Date: The date on which a Customer payment is due to the Company.

Extended Area Service: A geographic area beyond the local service area to which traffic is classified as local for selected customers, i.e., telephone service that allows subscribers in one exchange to call subscribers of another exchange without a toll charge. (N)

ILEC: The underlying incumbent Local Exchange Carrier, or other alternative carrier, which provides facilities and/or local exchange telephone services to the Company for resale to the Customer.

Local Exchange Carrier: A company which furnishes exchange telephone service.

Nonpublished Listing: A directory listing which is not printed in a directory nor available from directory assistance.

Non-Recurring Charges: The one-time initial charges for services including, but not limited to, charges for installation and special fees for which the Customer becomes liable at the time the Service Order is executed.

Issued: 7/12/01

Effective: 8/13/01

Issued by: David Griffie, President
1-800-RECONEX, Inc.
2500 Industrial Avenue
Hubbard, Oregon 97032

1.0 Definitions (Cont'd)

Recurring Charges: The monthly charges to the Customer for services which continue for the agreed-upon duration of the service.

Repeat Dialing *66: Activate Repeat Dialing by dialing *66 and it will monitor the number the Customer called for up to thirty minutes and alert the customer with a distinctive ring when the number is available. Repeat Dialing can be used to return calls to more than one busy number at the same time. (N)

Ring Master: Ring Master is a distinctive ring that gives the Customer two different numbers on one phone line. A special ring will let the Customer know which number has been dialed, so the Customer knows instantly if the call is for them or the other designated line holder. (N)

Service Order: The request for local exchange services initiated by the Customer in a format specified by the Company.

Services: The Company's telecommunication services offered to the Customer.

Set-Up Charge: A non-recurring charge to establish the Customer's account.

Speed Dial: Speed Dial stores eight numbers. Once programmed into one phone, it will work from any phone in the house. To program Speed Dial, press 74#, enter the two-digit code desired using numbers 20 through 49, and key in the telephone number the code is to represent. To call a Speed Dial number, the Customer simply enters the assigned code and presses #. (N)

Station: Telephone equipment from or to which calls are placed.

Three-Way Calling: The User can sequentially call two other people and add them together to make up a three-way call. —

User: A Customer or any other person authorized by the Customer to use service provided under this Tariff.
